TARGE SOAP FACTORY RESPORED -- Vechernyaya Mozkva, No 148, 23 Jun 49

Reconstruction of the "Svoboda" Factory, one of the largest producers of toilet scap and other cosmetic articles in the USSR, is progressing at full speed. In 1949, it has been planned to install three automatic assembly lines, the first to be used in scap production. They will increase the factory's capacity 30 percent. The plant recently received more than ten carloads of new equipment and machines, including comple presses, rolling machines, and drying apparatus which will sharply increase production and improve quality. On 23 June, nearly one million cakes of scap came off the factory's assembly line.

The factory is now producing more than 30 different types of toilet soap and has restored production of all proper types.
